**LICENSING ELIGIBILITY REQUIREMENTS
FLORIDA STATE CERTIFIED CONTRACTORS**

- 18 years of age
- Good moral character
- 4 years experience in the trade for which the applicant is qualifying
- One of the 4 years must be as a foreman
- The remaining 3 years must be as a workman or supervisor. Education may be substituted for some work experience.

GENERAL-BUILDING

Experience must include at least 4 of the following:

- Foundation/Slabs > 20,000 Sq. Ft.
- Masonry walls
- Steel erection
- Elevated Slabs
- Precast concrete structures
- Column erection
- Formwork for structural reinforced concrete

GENERAL CONTRACTOR: Experience must include 1 year in construction of structures not less than 4 stories in height. The license qualifies the holder to build any type or size residential or commercial buildings.

BUILDING CONTRACTOR: The license qualifies the holder to build residential or commercial buildings not exceeding three (3) stories in height.

RESIDENTIAL

Experience must include at least 4 of the following:

- Foundation/Slabs
- Masonry walls
- Trusses
- Structural wood framing (excluding platform framing)
- Column erection
- Formwork for structural reinforced concrete

RESIDENTIAL CONTRACTOR: The license holder can build one, two and three family units not exceeding two (2) stories.

CLASS "A" AIR CONDITIONING CONTRACTOR:

License holder may install, maintain, repair and/or service air conditioning, heating and refrigeration equipment without size limitations.

CLASS "B" AIR CONDITIONING CONTRACTOR:

License holder may install, maintain, repair and/or service air conditioning, heating and refrigeration equipment up to 25 tons cooling and 500,000 btu heat.

MECHANICAL CONTRACTOR: License holder may install, maintain, repair and/or service air conditioning; refrigeration; heating; boilers; unfired pressure vessel systems; gas, air, vacuum, oxygen, nitrous oxide, ink, and chemical line piping; piping and installation of gasoline tanks; pneumatic control piping; condensate piping; and piping for lift stations.

COMMERCIAL POOL CONTRACTOR: Scope of work includes construction, repair, maintenance, water treatment and servicing of all swimming pools and spas.

RESIDENTIAL POOL CONTRACTOR Scope of work includes construction, repair, maintenance, water treatment and servicing of residential swimming pools and spas.

POOL SERVICING CONTRACTOR: Scope of work includes servicing, repair, water treatment and maintenance of swimming pools and spas, public or private.

PLUMBING CONTRACTOR: Scope of work includes the installation, maintenance, extension and alteration of all plumbing fixtures and appurtenances in connection with sanitary drainage, venting, public or private water supplies, storm and sanitary sewer lines, water and sewer plants and substations, septic tanks, nitrous oxide piping, fuel oil, gasoline piping, tank and pump installation.

ROOFING CONTRACTOR: Scope of work includes the installation, maintenance and alteration of all kinds of roofing/waterproofing including roll roofing, single-ply, built-up roofing, metal roofing, shingles, shakes, tile, modified bitumen, cold process, caulking, sealants and foam.

UNDERGROUND UTILITIES CONTRACTOR: Scope of work includes the construction, installation and repair on public or private property of main sanitary sewer collection systems, main water distribution systems, and storm sewer collection systems.

SPECIALTY STRUCTURE CONTRACTOR: Scope of work includes residential and/or commercial construction using aluminum and allied products, to include fabrication, assembling, handling, erection, installation, dismantling, adjustment, alteration, repair, servicing and design work.

DRYWALL CONTRACTOR: Scope of work includes light steel framing, gypsum board installation and finishing.
